

INTERVIEW IN MEN'S HEALTH OF GREECE OF 2006:

HEALTH ON YOUR HAIR BY MEXIS GUIDANCE

The greek researcher-inventor against baldness, Mr MEXIS GEORGE talks for the first time without barriers "shaking" men under hair loss or baldness about what to do and what not to do.

Hair falls more and more and nowadays the "bald" image is met more often than ever, something very annoying and repulsing.

Studies have shown that in America men spend over 9 billions dollars annually trying and testing to save only their hair, but in vain...

A greek inventor explains how he has solved this problem for thousands of people over the globe for the last 15 years...

RESIST! DON'T GIVE IN PROMISES OF LOSERS.

Results must be shown not told and specifically on your or your friend's head! Don't forget that "hair specialists" of today are bald or semi bald themselves! Lots of those "specialists" and their friends have come to me to solve their hair problems. You have to be beautiful in and out...

Don't listen to instructions-sacrifices, which force you to suffer in a way for hours or days or months or for an unsure result. Scalp is a very sensitive area of our body and hurting or piercing it or numbing it or even rubbing it is the worst treatment for it. Hair needs food to be restored, not violence...

I HAVE THE SOLUTION, I KNOW EVERYTHING!

15 years aren't enough for me to hold the title of the "owner" of the antibaldness solution?

I struggle and see that my lotion is purely ecological, not a drug, gives what hair needs and has lost to revive and stops the nightmare of hair loss forever!

My research-team with all my co-operators in my company are ready to answer to every fear, insurance or doubt you might have.

In my site I've tried to explain in simple, few words my drastic lotion so as for all men to be persuaded of its true power what media of Greece mainly do not communicate the truth about me and my lotion.

I LOVE GREECE AND THAT'S THE REASON WHY I STAYED IN MY COUNTRY.

Although I had a lot of proposals to leave Greece and start a career abroad, I stayed to struggle by checking my clients' progress on their head systematically guiding them how to use MEXIS/M6S PATENT lotion better, keeping statistics over hair regrowth on several models of baldness. Nevertheless I try to spread my lotion also abroad.

BE VERY CAREFUL WITH BALDNESS!

IT HIDES SERIOUS RISK-FACTORS ON OUR HEALTH

Hair loss strikes and organ where hair needed to protect our organism from lots of problems. Some of them wait the right time to enter in the skin of the head like pollution, radiation, viruses and micro-organisms. My lotion gives beauty with thick and strong hair combined with health. Statistics and Clinical Researches at the National Institution of Researches of Greece, have proved the above. A Brief report can be found in my site.

IF YOU TRUST ME, I OFFER TREATMENTS WITH DRASTIC RESULTS IN GOOD PRICES ,
ESPECIALLY FOR MEN'S HEALTH READERS. I LOVE BEAUTY AND I OFFER IT GLADLY
AND GENEROUSLY!

GEORGE MEXIS:

THE GREEK INVENTOR-OWNER OF THE FINAL COSMETICAL SOLUTION ON THE
PROBLEM OF ALOPECIA.

Mr Mexis George the geek inventor of the method that solves permanently the problem of hair loss
and baldness on men and women. His method is a cosmetical lotion called "MEXIS/M6S PATENT"
worldwide patented* with clinical researches* and legally approved by the Greek Drug
Organisation*, the EEC & the US legislation.

The above lotion is an oily mixture, based on new patented ingredients without any side effects on
the user, a few drops on the head are enough for the mixture to "work" and it gradually stops
hair loss and creates a natural, total and permanent regrowth not based -the most important point on
its drastic work- on side effects-. The results start to be seen after the first usage.

Mr Mexis has a career of 20 years of successful results on thousands of human users, men and
women of every age and stage of alopecia, who regain their hair back.

The clinical researches have taken place on University of Studies of Pavia(prot.No:2001B124F) on
humans (in vivo) with total success.

The Clinical studies proved that for the first time in History the cosmetical lotion "MEXIS/M6S
PATENT" Revives hair without pain and without being based on side-effects. Besides, Mr Mexis
used himself for the first time for his experiments to prove the power of his invention when he was
suffering himself from Androgenetic Alopecia.

Moreover, the above lotion has the potential to create the best environment for the hair protection
of being white and or unable to gain length by helping it to be in perfect shape and condition and
lengthen up to 4cm per month.

Its drastic ingredients are totally natural, totally purified, familiar to the head's natural conditions
and in contrast with hair transplants creates a natural re-growth without any harming consequences
when hair transplants take hair off from parts of the head that need them there leaving these parts
very pathetic and open to harmful factors and place them on hairless parts of the head which suffer
from defluvium , are totally unable to feed them and under crisis of the phenomenon called:

"Androgenetic Alopecia" which practically makes hairy territories unable to keep any hair there.

"MEXIS/M6S PATENT" lotion gives 100% successful results.
